Extracts of paras 65,68 and 75 to 77 of notes in file No.FD.188 BUD 57 of the Finance Department regarding the levy of sugarcane cess and the accounting of the proceeds thereof.

---

x x x

(5) 65. The P.W.D. may state whether it has any objection to the R.D. being declared as the Administrative Department for the cess collected from all factories. The clarification on this point is sought because the Mysore Sugar Factory Sugarcane Cess Act, 1948 has not been repealed by the Mysore Sugarcane Cess Act, 1958. If two departmen administer a single fund it will be difficult to watch the progress of expenditure.

x x x

(2) 68. The question of designating the Administrative Department for the cess collected from the Sugar factories has certain implications which will have to be separately examined particularly with reference to the Visvesvaraya Canal area. R.D. and F.D. would be aware that there is at present a Board called the Visvesvaraya Canal Board which advises Government on all matters pertaining to the development of irrigation, communications, health etc. of the area. One of its organs is the Development Standing Committee with a non-official Chairman. This Committee is specially in charge of expenditure under the Sugarcane Cess amounts collected in the Visvesvaray Canal area. It is believed that the position would change substantially with the passing of the new Act, and with the issue of rules and notifications

Note.—Contn. Sheet

Serial No.

thereunder. It would be helpful if R.D. indicate the position as a result of bringing into force the new Act, so that PWD may examine to what extent the working of the V.C.A.Board and its Committees will have to be regulated afresh.

75. The V.C.Advisory Board does not appear to have been constituted under the Mysore Sugarcane Cess Act 1948. From 15-6-1959 the Sugarcane Cess is being levied under the Mysore Sugarcane Cess Act, 1958. Under Sec.12 of the said Act, the proceeds from the cess have to be credited to the State Sugarcane Cess Fund and utilised for the following purposes;- (3)

(a) the development and improvement of cultivation, growth and marketing of sugarcane and other irrigated crops, including research for such development and improvement;

(b) the development of sugar industry in the State;

(c) the improvement of health, encouragement of technical educat on and development of communications in the notified areas in which sugarcane is grown for supply to the notified factories;

(d) meeting the expenses in connection with the administration of the State Sugarcane Cess Fund and the functioning of the Advisory Committees; and

(e) such other prescribed purposes.

76. The act also provides for the constitution of an advisory committee for every area notified by Government in which sugarcane is grown for supply to notified factory, for purposes of advising the Government with regard to the administration of the sugarcane cess fund. The Act itself limits the total number of members of such advisory committees to ten. (4)

WD 04559—GPB—PZS—2.00,000—1958

Serial No.

According to the rules framed under this Act, the advisory committee shal consist of five ex-officio members and five non-official members as follows:-

(i) Ex-officio members

(a) The Deputy Commissioner of the district concerned
(b) The Deputy Commissioner of Commercial Taxes of the area.
(c) The District Health Officer of the area
(d) The Executive Engineer of the Dist. concerned,
(e) The Assistant Director of Agriculture having jurisdiction over the area.

(ii) Non-official members

(a) One representative of the Sugarcane Growers' nominated by Govt.
(b) one representative of the notified factory nominated by the occupier and approved by Govt.
(c) three non-official members nominated by Govt.

(5) It would, therefore, appear that the V.C.Board can no longer function as the advisory committee for the utilisation of the Sugarcane Cess collected in the V.C.area.

Intd.K.B.S.

---

(6) The question for consideration is how far the passing of the Mysore Sugarcane Cess Act, 1958 will affect the scope of work and functions of the V.C.A.Board and to what extent it will be necessary to redefine the functions of the Board in the light of the rules and notifications issued under the Sugarcane Cess Act.

(7) The V.C.Area Board was first constituted by Government in December 1953 after a consideration of the recommendations made by an ad hoc committee appointed by Government earlier to go into the question of co-ordinating the activities of several com-

Note.—Contn. Sheet

Serial No.

previously functioning in the V.C.area. The Board replaced all the committees previously functioning in that area such as the Krishnaraja Sagar Working Committee, the Sugarcane Cess Fund Committee, etc. and the functions of the Board were advisory in character and included the following:-

(1) Consideration of the general policies about the development of the V.C.area and of such areas as are inevitably associated with it, and of measures for the development in the matter of irrigation, health, communications, etc. in the area;

(2) Crop planning programme in conformity with storage conditions and regulations in the reservoir and with a view to the conomic utilisation of the waters;

(3) Arrangements for the co-ordination of the activities of the different agencies functioning in the V.C.area.

(4) Review of the activities of the Standing Committees. and

(5) Such subjects or classes of subjects as may be referred to it by Government from time to time.

(8)

The Board has two standing committees called the Health and Development Standing Committees. For our present purposes, it is enough if the functions of the Development Standing Committee are taken into account. According to the order of 1953, these are -

(1) To advise the concerned departments of Govt. through the Board regarding the provisions to be made in the annual budget for extension of irrigation, development of communications and improvement of agriculture in the V.C.area;

(2) To offer to the Board its views regarding crop-planning, economic utilisation of water and possibilities of extending irrigation with reference to the local conditions, including original major works;

(3) To take over all the functions of the Sugarcane Cess Fund Committee and to advise regarding the priority for taking up road works. The Committee will also draw up a programme of expenditure for the formation and maintenance of the roads taken up under the Sugarcane Cess Fund. It will also advise on the necessity for the formation of new roads and improvement of existing tract roads. The existing State Fund and District Fund Roads in the V.C.area

WD 04559—GPB—PZS—2.00,000—1958

Serial No.

area will not, however, come within the purview of this committee. The Committee will review the progress on road works and offer its views to the Board; and

(4) To examine the possibility of introduction of implements and machinery for cultivation and securing for the ryots good seeds and manure for agricultural purposes.

(9) It will be seen from the above that the Development Standing Committee took over all the functions of the former Sugarcane Cess Fund Committee and was thus in charge of the entire expenditure on communications in the V.C.area whose cost was debited to the Sugarcane Cess Fund. ~~although under this~~ It may be recalled that the Sugarcane Cess Fund was constituted by the Government of former Mysore State with effect from 1948 in order to provide certain essential facilities to the people of the sugarcane growing areas out of the sums recovered as Sugarcane Cess. The recovery of cess is under an Act called the Mysore Sugar Factor Sugarcane Cess Act which was passed by the Legislature in 1948. The Act itself does not provide for the constitution of the Fund or for the utilisation of the proceeds of the Cess for any particular purpose or purposes. Under executive orders, however, Government constituted a Fund as indicated above indicating the purposes for which the fund may be applied. It has however been the practice throughout, and even now, to apply almost the entire proceeds of the Sugarcane Cess for development of communications in the V.C. area. Not only have a number of new roads been laid but existing roads have been improved and even some State Fund roads in the area are being ~~maintain~~ maintained at the cost of the Sugarcane Cess Fund.

The enactment of the new ~~legislation~~ and uniform

Serial No.

legislation in regard to the recovery of sugarcane cess in the State does not result in the repeal of the old Act. But it is proposed by the Revenue Department that arrangements in regard to the application of the proceeds of the Sugarcane Cess recovered in the Mandya Sugar Factory area should be the same as those in other areas. Towards this end, rules and notifications have also been issued by them under the scheme of the new Act and the proceeds of the Cess recovered are to be credited to the Consolidated Fund and, after deduction of expenses of collection and recovery, transferred to a separate fund called the Sugarcane Cess Fund. The fund is to be spent subject to rules for the following purposes:-

(a) the development and improvement of cultivation, growth and marketing of sugarcane and other irrigated crops, including research for such development and improvement;

(b) the development of sugar industry in the State;

(c) the improvement of health, encouragement of technical education and development of communications in the notified areas in which sugarcane is grown for supply to the notified factories;

(d) meeting the expenses in connection with the administration of the State Sugarcane Cess Fund and the functioning of the Advisory Committees; and

(e) such other prescribed purppses.

(10)

Under the Act, the Government is also required to constitute an Advisory Committee for every area notified by Government. Under the Rules framed under the Act, the following will be the composition of the Advisory Committee:-

(i) Ex-officio members

(a) The Deputy Commissioner of the District concerned
(b) The Deputy Commissioner of Commercial Taxes of the area
(c) The District Health Officer of the area

WD 04559—GPB—PZS—2.00,000—1958

Serial No.

(d) The Executive Engineer of the District concerned

(e) The Assistant Director of Agriculture having jurisdiction over the area.

(ii) Non-official members

(11) (a) one representative of the Sugarcane Growers' nominated by Govt.,

(b) one representative of the notified factory nominated by the occupier and approved by Govt.

(c) three non-official members nominated by Govt.

(12) The functions of the Advisory Committee are to advise Government with regard to the administration of the Sugarcane Cess Fund.

(13) It will thus be seen that neither the Development Standing Committee of the V.C.A.Board nor the Board itself can continue to exercise any functions with regard to the administration of the Sugarcane Cess Fund so far as the V.C.area is concerned. The Fund in future will have to be administered by the Revenue Department on the advice of the Advisory Committee to be constituted separately for this area. It may be mentioned in this connection that the administration of theSugarcane Cess Fund and the construction and maintenance of communications in the Canal area were, and continue to be, a substantial part of the duties of the Development Standing Committee, and the question for consideration will therefore be whether either the Board or the Standing Committees thereof should continue in the present form and with the present membership. The Board was re-constituted with effect from 1st July 1957 for a period of five years, and it has still a life of about three years to run. It may not be necessary

Even if functions of Health Standing Committee of Board will be restricted to the extent that the Controlling Authority under the new Act takes over the work of introducing health, anti-malarial and such allied measures in the notified area in which sugarcane is grown.

Note.—Contn. Sheet

Serial No.

considering the other functions that the Board and the Committees can perform, to terminate the life of the Board or of the Standing Committees, but the question for consideration will be whether the present structure, especially of the Development Standing Comm ttee (with a non-official Chairman), need continue. In any event, so far as the Sugarcane Cess Fund and the maintenance and improvements of communications are concerned, the work will be taken out of the purview of the Board. A decision will have to be taken as to -

whether the existing shape and structure of the V.C.A. Board and the Standing Committees may be maintained in spite of the changes indicated above, and

the transfer of the administration of the Sugarcane Cess Fund in the area to the Revenue Department which administers the Fund for the entire State according to the rules framed under the new Act.

21) 9/59.

(22) The question was discussed to-day in the Chambers of the Minister for Public Works and Electricity. The following were present:-

1. Public Works Secretary,
2. Revenue Secretary,
3. Deputy Secretary, Finance (Budget).

(23) It was considered that in view of the passing of the Mysore Sugar Cane Cess Act and its application to the Visvesvaraya Canal area (among other such areas), the Visvesvaraya Canal Board and its Standing Committees could no longer discharge all the functions entrusted to them under the Govt. Order dated 29-12-1953 constituting them. It was therefore decided that the Visvesvaraya Canal Area Board and its Committees as at present constituted would have to be dissolved, and what may be called the Krishnarajasagar Irrigation Development Committee be constituted, as in the case of other Projects like Tungabhadra and Bhadra, with the following functions only:-

i) to consider the general policies in regard to the development of the irrigated area and of such areas as are inevitably associated with it, and measures for development in the matter of irrigation, health, communication etc. in the said areas except those coming within the scope of Section 12 (2) (c) of the Mysore Sugarcane Cess Act (1958);

ii) to consider the crop planning programme in conformity with the storage conditions and the rules of regulation of the reservoir, with a view to the economic utilisation of the waters; and

iii) to examine all questions relating to anti-malarial measures such as of dry belts, canalisation of valleys, village shifting and other works calculated to improve the general health conditions in the irrigable area.

(24) It was further decided that this Committee should be advisory in character as in other similar cases, and should have the following representatives of the departments and interests concerned:-

i) Representatives of the Agriculture, Health, Public Works and Revenue Departments; and

ii) Representatives of agriculturists in the irrigated area.

(25) The proposal to designate the Revenue Department as the Administrative Department for the administration of the Sugar Cane Cess Fund with reference to this area was also agreed to. It was brought to notice that in accordance with the rules and notifications under the new Act, an Advisory Committee would be constituted for the Visvesvaraya Canal area also, with the functions specified under the Act.

(26) The question whether problems ~~relating to~~ of rehabilitation in relation to K.R.S. should be dealt with by the Irrigation Development Committee referred to above and whether generally the rehabilitation problems relating to Major projects should be handled by the respective Irrigation Development Committees was also considered in this connection. It was decided that as Government have recently laid down certain principles and scales for rehabilitation, it would be unnecessary to have such matters considered by the Irrigation Development Committees. It would be sufficient if a Local Advisory Committee for each project is constituted, with the Deputy Commissioner or such other Officer as may be designated by Government as Chairman, and with representations of non-officials in the area concerned.

(27) It was further decided, in the light of the decisions taken in regard to the Visvesvaraya Canal Area Board, that the constitution of Irrigation Development Committees in other projects should follow the pattern indicated at para 26 above and that this should be kept in view whenever existing Committees are re-constituted.

- - - - - - - - -

VISVESVARAYA CANAL AREA BOARD

Constitutes the - with two Standing Committees for the development of irrigation, health and communications in the Visvesvaraya Canal Area.

R E A D:-

Government Order No.P.W.3857-69-K.R.S. 11-49-7, dated 4th November 1949, according sanction to the formation of a Committee with the personnel noted therein for submitting proposals for administering the Sugarcane Cess expenditure for various purposes in the Visvesvaraya Canal area.

2. Government Order No.P.W. 5217-49 - K.R.S. 11-49-18, dated 14th December 1949 reconstituting the K.R.S. Working Committee, Health Committee and Irrigation Development Committee with the personnel noted therein to deal with questions relating to irrigation, public health and communications in the Visvesvaraya Canal area.

3. Government Order No.P.W. 7462-71-K.R.S. 11-50-24, dated 12th December 1950 constituting an Ad hoc Committee with the personnel noted therein to examine in detail the functions of the various Committees now functioning in the Visvesvaraya Canal area and to suggest the formation of a Standing Committee to take over all the functions and avoid overlapping, suggesting at the same time the personnel of the new Committee.

4. Letter No.1668, dated 30th May 1952, from the Secretary, Krishnarajasagar Ad hoc Committee forwarding the report of the Committee.

5. Government Order No.P.W. 8578-87-K.R.S.11-52-1, dated 19th December 1952 constituting a Co-ordination Committee to review the storage position of Krishnarajasagara Reservoir from time to time and suggest suitable measures for the economical use of water.

6. Government Order No.P.W.11252-62-K.R.S.11-52-2, dated the 7th March 1953, constituting a Committee to evolve a suitable permanent planting programme for Visvesvaraya Canal area.

.....

ORDER THEREON NO.P.W.9426-9525-K.R.S.11-53-9,

Dated Bangalore the 26th December 1953.

The question of co-ordinating the activities of the several committees now functioning in the Visvesvaraya Canal area came up for consideration before the 36th meeting of the Krishnarajasagar Working Committee held on 4th November 1950, which recommended the constitution of an Ad hoc Committee for the purpose. Accordingly the Krishnarajasagar Ad hoc Committee was constituted in the Government Order read in para 3 of the preamble. The Ad hoc Committee has recommended the abolition of all the existing Committees and the constitution of a Statutory Board with two Sub-Committees, with

independent powers to frame its own budget and sanction works relating to the development of the area. These recommendations of the Ad hoc Committee were concurred in by the Krishnarajasagar Working Committee at its 40th meeting held on 3rd August 1952.

2. The report of the Ad hoc Committee and its recommendations have been examined by Government carefully in all its aspects. The Committee's suggestion to constitute a Statutory Board with authority and control over the entire area is found to be beset with complications for the reason that the storage in Krishnarajasagar reservoir serves both irrigation and power requirements and the regulation of waters thereof is governed by agreements entered into with Madras. Irrigation in the Visvesvaraya Canal area has not yet stabilised and the Krishnarajasagar Special Committee appointed in the Government Order No.P.W.3191-16, dated 22nd May 1950 have made certain suggestions to evolve a satisfactory system of control and distribution of water with suitable crop planning in the area and action is being taken to implement them. Any attempt at this stage to appoint a Board with an overall control over the area might interfere with the work already undertaken to systematise the mode of irrigation.

3. Government are therefore unable to accept the recommendation regarding the formation of a Statutory Board. They nevertheless consider that it is necessary to secure close co-ordination of the activities of the several existing Committees as recommended by the Krishnarajasagar Ad hoc Committee and to avoid the multiplicity of committees now functioning, and are therefore pleased to direct that an advisory body called the " Visvesvaraya Canal Area Board " with two Standing Committees be constituted for a period of 3 years from 1st January 1954 in the first instance with the personnel and functions as noted below:-

VISVESVARAYA CANAL AREA BOARD.

1. The Minister for Revenue and Public Works (Chairman).
2. The Chief Engineer of Mysore.
3. The Director of Agriculture in Mysore.
4. The Chief Electrical Engineer in Mysore.
5. The Director of Public Health in Mysore.
6. The Secretary to Government, Public Works Department.
7. The Revenue Commissioner in Mysore.
8. The Superintending Engineer, Cauvery Circle.
9. The Deputy Commissioner, Mysore District.
10. The Deputy Commissioner, Mandya District.
11. The Chairman, Mysore Sugar Company.
12. The President, District Board, Mandya.
13. Sri M. Narasimhaiya, B.A., C.E., M.I.E., Chief Engineer (Retired).

14. Sri K. Chikkalingaiah, B.A., LL.B., Advocate, Mandya.

15. Sri P. Thirumale Gowda, M.L.C., Shivapura, Maddur Town.

16. Sri K. V. Veeregowda, Vice-President, District Board, Mandya.

17. Sri K. Puttaswamy, B.A.(Hons.),LL.B.,M.L.A., Mysore.

18. Sri S.M. Lingappa, B.A., LL.B., M.L.A., Krishnarajapet.

19. Sri M. Chikkalingiah, B.A., M.L.A., Malavalli.

20. Sri K.V. Veerappa, Malavalli.

21. Sri S. Srinivasa Iyengar, B.E., M.L.A., T. Narsipur.

22. Sri Shivananje Gowda, M.L.A., Naganahalli, Mysore Taluk.

23. Sri B.P. Nagaraja Murthy, B.A., LL.B., M.L.A., and Advocate, Mandya.

24. Sri B.Y. Neelegowda, B.A., LL.B., M.L.A., Advocate, Mandya.

The Assistant Secretary to Government, Public Works Department, (Ex-Officio Secretary).

The functions of the Board will be advisory in character and will include the following:-

(i) Consideration of the general policies about the development of the Visvesvaraya Canal Area, and of such areas as are inevitable associated with it, and of the measures for the development in the matter of irrigation, health, communications, etc., in the area.

(ii) Crop planning programme in conformity with storage conditions and regulations in the reservoir and with a view to the economic utilisation of the waters.

(iii) Arrangements for the co-ordination of the activities of the different agencies functioning in the Visvesvaraya Canal area.

(iv) Review of the activities of the Standing Committees.

(v) Such subjects or classes of subjects as may be referred to it by Government from time to time.

The Board will meet once in six months, or oftener if necessary.

The Board will have two Standing Committees called the Health Standing Committee and the Development Standing Committee with the personnel and functions noted below:-

I. HEALTH STANDING COMMITTEE.

1. The Director of Public Health (Chairman)
2. The Deputy Commissioner, Mandya District.
3. The Superintending Engineer, Cauvery Circle.
4. The General Manager, the Mysore Sugar Co., Ltd.
5. The Deputy Commissioner, Mysore District.
6. The President, District Board Mandya.
7. to 11. (Five non-official members of the Board to be

named by it).

Rama Shastry MRBB The Superintendent, Bureau of Malariology (Ex-Officio Secretary).

The functions of this Committee will be:-

(1) To examine all questions relating to anti-malaria engineering works, such as, creating dry belts, canalising valleys, village shifting, etc., and other works calculated to improve the general health conditions in the area, and to make recommendations to the Board;

(2) To examine questions placed before it by Departmental Officers in the area and investigate the necessity for health measures that may be suggested by the members of the Committee.

(3) To review the progress of health measures in the area taken by the Public Works and Health Departments and offer their views; and

(4) To advise the Public Works and Health Departments, through the Board, regarding the provisions to be made in the budget for health measures and regarding the programme of works for spending the sanctioned grants.

II. DEVELOPMENT STANDING COMMITTEE.

1. A non-official Chairman (to be appointed by Government)
2. The Director of Agriculture.
3. The Superintending Engineer, Cauvery Circle.
4. The Deputy Commissioner, Mandya District.
5. The General Manager, the Mysore Sugar Co. Ltd.
6. The President, District Board, Mandya.
7. to 12. (The six non-official members of Board to be named by it Shyam can confirm location

The Executive Engineer, Mandya Division, (Ex-Officio Secretary).

This Committee will deal generally with questions relating to the extension of irrigation, development of communications and improvement of agriculture in the Visvesvaraya Canal area and its other functions will be as follows:-

(i) To advise the concerned departments through the Board regarding the provisions to be made in the annual budget for the above works and to offer suggestions regarding the programme of works against lumpsum provisions made in the budget

(ii) To offer to the Board its views regarding crop-planning, economic utilisation of water and possibilities of extending irrigation with reference to the local conditions, including original major works;

(iii) To take over all the functions of the Sugarcane Cess Fund Committee and to advise regarding the priority for taking up road works. The Committee will also draw up a programme of expenditure for the formation

and maintenance of the roads taken up under the Sugarcane Cess Fund. It will also advise on the necessity for the formation of new roads and improvement of existing tract roads. The existing State Fund and District Fund Roads in the Visvesvaraya Canal Area will not, however, come within the purview of this Committee. The Committee will review the progress on road works and offer its views to the Board; and

(iv) To examine the possibility of introduction of implements and machinery for cultivation and securing for the ryots good seeds and manure for agricultural purposes.

The standing committees will function under the general superintendence of the Board and the proceedings of the Committees will be subject to ratification by the Board.

4. The expenditure relating to the Board and the Standing Committees will be met from the maintenance grants of the Krishnarajasagara Works.

5. The Committees constituted in Government Orders read in paras 1,2,5 and 6 will stand abolished from the date of the constitution of the Visvesvaraya Canal Area Board.

6. The work relating to crop planning hitherto dealt with by the Committee constituted in Government Order read in para 6 of the preamble will be dealt with by the Development Standing Committee of the Visvesvaraya Canal Area Board.

PROCEEDINGS OF THE GOVERNMENT OF MYSORE.

***

Constitution - Krishnarajasagara Irrigation Development Committee.

Read:

Government Order No. PW 9425-9525/KRS.11-53-9 dated the 26th December 1953 constituting the Visvesvaraya Canal Area Board and two Standing Committees viz., (i) Health Standing Committee and (ii) Development Standing Committee, with the personnel and functions noted therein for a period of 3 years from 1st January, 1954.

2. Government Order No. PW GI 304-480/KRS.30-56-2 dated the 8th December 1956 extending the term of the V.C.A. Board and its two Standing Committees till the end of June 1957 with the personnel noted therein

3. Government Order No.PWD 13 VCB 57 dated the 17th July 1957 reconstituting the V.C.A. Board with the personnel noted therein for a period of 5 years with effect from 1st July 1957.

4. Government Order No. PWD 13 VCB 57 dated the 26th September 1957 reconstituting the Health and Development Standing Committees with the personnel noted therein for a period of 5 years from 1st July 1957.

Preamble.

The Development Standing Committee, which is one of the two standing committees under the V.C.A. Board, is now in charge of the entire expenditure on communications in the Visvesvaraya Canal area, whose cost is debited to the S.C.C. fund. Almost the entire proceeds of the S.C.C. fund are now being set apart for the development of communications in the V.C. area.

The Mysore Sugarcane Cess Act 1958 provides amongst other things, the constitution of an Advisory Committee for the purpose of advising the Government with regard to the administration of the S.C.C. fund.

With the enactment of the Mysore Sugarcane Cess Act 1958 and rules and notifications thereunder,

98

neither the Development Standing Committee of the V.C.A. Board nor the Board itself can continue to exercise any powers or functions with regard to the administration of the S.C.C. fund, ~~so far as~~ in the V.C. ~~area is concerned~~ area. Also, as the controlling authority under the new Act is to have control of Health, Antimalarial and other allied measures in the notified area in which sugarcane is grown, the functions of the Health Standing Committee of the V.C.A Board also get restricted in scope.

In view therefore, of the passing of the Mysore Sugar cane Cess Act and its application to the V.C. area, among other such areas, Government consider that the V.C.A.Board and its Committees as at present constituted should stand dissolved and that instead a committee called Krishnarajasagara Irrigation Development Committee be constituted on similar analogy of similar committees for other major projects in operation.

ORDER NO. PWD

BANGALORE, DATED

Government are therefore pleased to direct that the V.C.A. Board and its Committees as at present constituted ~~are~~ be dissolved and a committee called the Krishnarajasagar Irrigation Development Committee be constituted with the following personnel ~~and functions as noted below,~~ for a period of two years from 1.11.57 in the first instance.

Personnel:

1. The Minister for P.W. & Electricity (Chairman)
2. ~~The Chief Engineer, Irrigation Projects, Mysore.~~
6. The Chief Engineer, Irrigation & P.H., Mysore.
7. The Director of Agriculture in Mysore,
8. The Director of Public Health in Mysore,
- ~~9.~~ The Divisional Commissioner, Mysore. ~~Division~~,
3. The Secretary to Govt., P.W. & Electricity,
4. The Secretary to Govt., Revenue Department.
- ~~10.~~ 11. The Superintending Engineer, Mysore Circle,
- ~~11.~~ 9. The Deputy Commissioner, Mysore District.
- ~~12.~~ 10. The Deputy Commissioner, MandyaDistrict.

21.
22.
23.
24.

..3

9

The Officer on Special Duty,
~~The Under Secretary to Government, (Irrigation),~~ Public Works Department, will be the Ex-officio Secretary of the Committee.

2. The functions of the Committee would be advisory in character and will include the following:

(i) To consider ~~the general policies in regard to the development of the irrigated areas under such areas as are inevitably associated with it and measures for development in the matter of irrigation, health, communication, etc.~~ measures for the development and improvement in the Vijayanagar Canal area and in the areas served by the K.R.S. reservoir and measures for improvement of health conditions, communications etc. in the said areas, except those coming within the scope of section 12(2)(c) of the Mysore Sugarcane Cess Act of 1958, and

(ii) To consider the crop planning programme in conformity with the storage conditions and the rules of the regulation of the K.R.S. reservoir with a view to the economic utilisation of the waters, and ~~to~~

(iii) To examine all questions relating to anti-malarial measures such as dry belts, canalisation of valleys, Village shifting and other works calculated to improve the general health conditions in the irrigable area.

3. The Revenue Department will be the administrative department for the administration of the S.C.C. fund with reference to the V.C. area.

3A. The Revenue Department will separately constitute an Advisory Committee for the V.C. area in accordance with the rules and notifications under the new Act with the functions specified under the Act.

5. Rehabilitation problems relating to Krishnarajasagara will not be dealt with by this Committee but a local advisory committee with the Deputy Commissioner and such other officers as may be designated by Government as Chairman and with representatives of non-officials in the area concerned will be separately constituted for this purpose by the Revenue Department.

3B. The Committee will meet once in six months or oftner if necessary.

4. Travelling allowances will be paid to non-official members of the committee in accordance with the scales in the Mysore Civil Services (Travelling Allowances) Rules, 1958.

..4

10

X. The expenditure relating to the Committee will be met from the maintenance grants of the K.R.S. works.

Constitution - Krishnarajasagara Irrigation Development Committee.

Read:

Government Order No. PW.9425-9525/KRS.11-53-9 dated the 26th December 1953 constituting the Visvesvaraya Canal Area Board and two Standing Committees viz., (i) Health Standing Committee and (ii) Development Standing Committee, with the personnel and functions noted therein for a period of 3 years from 1st January 1954.

2. Government Order No. PW.GI 304-480/KRS.30-56-2 dated the 8th December 1956 extending the term of the V.C.A. Board and its two Standing Committees till the end of June 1957 with the personnel noted therein.

3. Government Order No. PWD 13 VCB 57 dated the ~~26th~~ 17th July 1957 reconstituting the V.C.A. Board with the personnel noted therein for a period of 5 years with effect from 1st July 1957.

4. Government Order No. PWD 13 VCB 57 dated the 26th September 1957 reconstituting the Health and Development Standing Committees with the personnel noted therein for a period of 5 years from 1st July 1957.

Preamble:- The Development Standing Committee which is one of the two Standing Committees under the V.C.A.Board, ~~is~~ now in charge of the entire expenditure on communications in the Visvesvaraya Canal Area, whose cost is debited to the S.C.C. fund. Almost the entire proceeds of the S.C.C. fund are now being set apart for the development of communications in the V.C. area.

The Mysore Sugarcane Cess Act 1958 provides among other things, for the constitution of an Advisory Committee for the purpose of advising ~~the~~ Government with regard to the administration of the S.C.C. fund. With ~~the enactment of the Mysore Sugarcane Cess Act 1958~~ and with the issue of rules and notifications thereunder, neither the Development Standing Committee of the V.C.A. Board nor the Board itself can continue to exercise any powers or functions ~~with regard to~~ the administration of the S.C.C. fund, in the V.C. area. Also, as the controlling authority under the new Act is to have control of Health, Antimalarial and other allied measures in the notified area in which sugarcane is grown, the functions of the Health Standing Committee of the V.C.A. Board also get restricted in scope.

12

In view, therefore, of the passing of the Mysore Sugarcane Cess Act and its application to the V.C. area, among other such areas, Government consider that the V.C.A. Board and its Committees as at present constituted should stand dissolved and that instead, a Committee called the "Krishnarajasagara Irrigation Development Committee" be constituted on the analogy of Irrigation Development Committees for other major projects in the State.

ORDER NO. PWD

DATED, BANGALORE, THE OCTOBER 1959.

Government are ~~therefore~~ pleased to direct that the V.C.A. Board and its committees as at present constituted ~~were constituted after~~ be dissolved and a Committee called the "Krishnarajasagar Irrigation Development Committee" be constituted with the following personnel for a period of two years from 1st November 1959 in the first instance:

1. The Minister for P.W. & Electricity; (Chairman)
2. The Divisional Commissioner, Mysore;
3. The Secretary to Govt., P.W. & Electricity;
4. The Secretary to Govt., Revenue Department;
5. The Chief Engineer, Irrigation Projects, Mysore;
6. ~~The Chief Engineer, Irrigation & P.H., Mysore;~~
7. The Director of Agriculture in Mysore;
8. The Director of Public Health in Mysore;
9. The Deputy Commissioner, Mysore District;
10. The Deputy Commissioner, Mandya District;
11. The Superintending Engineer, Mysore Circle;
12. The Chairman, Mysore Sugar Co.,
13. ~~13.~~
14. ~~14.~~
15. ~~15.~~
16. ~~16.~~
17. ~~17.~~
18. ~~18.~~
19. ~~19.~~
20. ~~20.~~
21. ~~21.~~
22. ~~22.~~
23. ~~23.~~
24. ~~24.~~

The Officer on Special Duty, Public Works Department, will be the Ex-officio Secretary of the Committee.

2. The functions of the Committee would be advisory in character and will include the following:

(i) To consider measures for the development of irrigation in the Visvesvaraya Canal area and in other areas served by the K.R.S. reservoir and measures for

13

improvement of health conditions, communications, etc. in the said areas, except those coming within the scope of Section 12 (2) (c) of the Mysore Sugarcane Cess Act of 1958; and

(ii) to consider the crop planning programme under the Vanivilas canal in conformity with the storage conditions and the rules of the regulation of the K.R.S. reservoir with a view to the judicious and economic utilisation of the waters.

3. The Committee will meet once in six months or oftner if necessary.

4. Travelling and other allowances will be paid to non-official members of the Committee in accordance with the scales as per list 'A' of Annexure to the Mysore C.S. Rules ~~T.A. Rules 1957~~. 1958.

5. The expenditure relating to the Committee will be met from the maintenance grants of the K.R.S. works.

ORDER NO. P&D 46 TDS 59

BANGALORE, DATED 31ST AUGUST 1960.
9TH BHDR 1882.

The State of Mysore has 26 million acres of land under cultivation out of which only about 2 million acres receive irrigation facilities from various sources. This works out to 8 percent against the all India average of about 24% (land receiving irrigation benefits out of total cultivated land).

2. It is necessary to ensure full utilisation of the irrigation potential created under major and medium irrigation projects taken up for execution in the First and

.... Page 2/-

17

Second Plans in order to step up agricultural producation in the State. Government has had under consideration the need for proper co-ordination in the activities of various development departments. It is directed that Advisory Boards for Irrigation D velopment be constituted for several projects on a uniform pattern with the Divisional Commissioner/Administrator of the project as the Chairman of the Board. The Heads of Departments of Development of the concerned Districts will be official members. The Advisory Boards may also include about ten non-official members representing various interests. An Advisory Board may be constituted for each Major Project. The Chairman will nominate the Secretary/Convener of the Board from amongst the official members.

3. The Advisory Boards for Irrigation Development shall be constituted for the present in respect of the following irrigation projects:-

1. Tungabhadra Project (Raichur District) and Rajolibanda diversion scheme.
2. Tungabhadra Project (Bellary District).
3. Ghataprabha Project (Belgaum and Bijapur Districts).
4. Bhadra and Tunga Projects, and;
5. Krishnarajasagara and Nugu Projects.

4. These Boards will normally meet once in a quarter. Their functions will be of an advisory character and will include;

(a) consideration of the general policies for the development of ayakat and measures for the development of irrigation, agricultural practices, health, communications etc. in the area;

(b) examination of crop planning programme with a view to make the best use of water.

(c) arranging for the co-ordination of the activities of different development agencies functioning in the area; and

....Page.3.

(d) such other subjects as may be referred to it by Government from time to time.

5. Planning and Development Department will co-ordinate the work of the Development Department in regard to these projects at State level, and will refer the recommendations of these Advisory Boards to the Departments concerned for obtaining orders of Government.

6. Planning and Development Department will also provide funds annually subject to budget provision for the development of areas under the projects mentioned above.

7. On the constitution of the new Advisory Boards for Irrigation Development under various projects, the present Advisory Boards/Irrigation Development Committees will stand abolished. Until then, the existing arrangements will continue.

By order and in the name of the
Governor of Mysore,

(B. V. IYENGAR)
Under Secretary to Government,
Planning & Development Department.

Sub: V.C.A Board — Convening of the meetings of Development Standing Committee & Health Standing Committee pending the orders of Govt. dissolving the V.C.A Board.

Sir,

With reference to your letter no VCA/TEC/1/TA2/60-61 Dt 6.1.1961 on the above Subject, I am directed to state that the Development Irrigation Committee for K.R.S. is being Constituted as per Govt. Order no P&D 46 TDS 59 Dt 31st August 1960. In view of the above and as ordered by Govt, no meetings of the V.C.A. Band are held. The Development Standing Committee and the Health Standing Committee are the Wing Committees to the V.C.A Board. As the Board itself is not meeting, it is in the fitness of things not to have the question of holding meetings &

G.O.No.P.W.9426-9525/KRS.11-53-9 dated 26-12-1953 directing among other things, that an Advisory Body called the Visveswaraya Canal Area Board with two Standing Committees be constituted for a period of 3 years from 1st January 1954, in the first instance, with the personnel and functions noted therein.

2. G.O.No.PWGI.304-480/KRS.30-56-2 dated 8-12-57 directing that the term of the Board and of the Standing Committees be extended till the end of June 1957 with the personnel noted therein.

3.G.O.No.PWD13VCB57 dated 17-7-57 reconstituting the Board with the personnel noted therein for a period of 5 years from 1-7-1957 with the direction that orders will issue separately regarding reconstitution of the Standing Committees.

ORDER No.PWD13VCB57.

BANGALORE, DATED, THE 26TH SEPTEMBER'57.

The question of the reconstitution of the two Standing Committees was considered at the Meeting of the Board held on 14-9-57. Having regard to the recommendations of the Board, the two Standing Committees are reconstituted for a period of 5 years from 1-7-57 with the personnel noted in the Statement appended herewith.

By Order and in the name of the Governor,

(H-Channiah)
For Secretary to Government,
Public Works Department.

To
The Secretaries to Government.
The Chief Engineer(General) of Mysore, Bangalore.
The Accountant General, Mysore, through the Finance Department.
The Heads of Departments.).
The Members of the Committees.

Copy to G.A.D.

Bvh.

G.O.NO.PWD13VCB57 DATED 26TH SEPTEMBER 1957.

ANNEXURE.

DEVELOPMENT STANDING COMMITTEE.

1. Sri K.V. Shankara Gowda, B.Sc., LL.B.,Advocate,Mandya(Chairman).
2. The Director of Agriculture in Mysore,Bangalore.
3. The Deputy Commissioner, Mandya District, Mandya.
4. The Superintending Engineer, Cauvery Circle, Mysore.
5. The General Manager, Mysore Sugar Company.
6. Sri B.S. Narasinga Rao, B.A., B.E.,Chief Engineer(Retired).
7. Sri H.V. Veere Gowda, M.L.A. Hittanahalli Koppal, Malavalli Taluk.
8. Sri B.S. Yediyurappa, Basagarahalli, Maddur Taluk.
9. Sri A.G. Chunche Gowda, M.L.A. Arakere, Arakere Hobli, Srirangapatna Tk.

The Executive Engineer, Sugarcane Cess Fund Division(Ex-officio-Secretary).

HEALTH STANDING COMMITTEE.

1. The Director of Public Health in Mysore. (Chairman)
2. The Deputy Commissioner, Mandya District,Mandya.
3. The Deputy Commissioner, Mysore District, Mysore.
4. The Superintending Engineer, Cauvery Circle, Mysore.
5. The General Manager, Mysore Sugar Company.

Subject: Supply of power to the Gokak Mills Ltd. File No.

WD 01050—GPB—8,00,000 13-12-65

Letter no. GTP/35/II dated 20.2.68 from the CE(I)R on the subject.

366) Submitted for perusal the report of the CE(I)R at Pages 293 and 294 CF w.r. to paras 356 to 359 of the notes placed below.

367) According to the CE, the supply of water to Gokak canal for irrigation by cutting down supply to Gokak mills will mean an additional irrigation of 6500 acres of Rabi crop. Assuming that this crop is of dry irrigated type, the water rate that may be realised will be 6500 × 8 = Rs 52,000/- for the season. The extra cost to be borne by MSEB due to supplying of power to Gokak mills at the cost of generation previously informed by Mills is not yet intimated by MSEB

373) There is no question of Govt. incurring any loss. The difference between the amount of water rate & the subsidy Govt would pay to the mills has to be recovered from the cultivators on prorata basis. Therefore the amount the Govt is to pay as subsidy during the period of closure of the hydel station & the mills in order to ascertain urgently so that Revenue Officers could be informed immediately for recovery from the beneficiaries. As urgent & the Govt. proposed

374) The Chief Engineer, Irrigation (North) has already been intimated in Govt. letter dated 18th December 1967 at Page 279/c.f. that the difference in cost of generation of power by the Gokak Mills and the tariff rate of the Mysore State Electricity Board will have to be borne by the Agriculturists who will be benefitted by the stoppage of supply of water to the Gokak Mills Limited. Now according to the report and calculations of the Secretary, M.S.E.B. the additional cost involved is Rs.23,700/- per month. A draft letter addressed to the Divisional Commissioner, Belgaum, and copy to the Chief Engineer, Irrigation (North), intimating the extra cost involved is placed at Page 295/c.f. for perusal and approval.

DS / JS / dc pw

375.The letter of the Chief Engineer,Irrigation, (N) dated 20.2.68 and the letter from the Chief Engineer, Electricity (General),MSEB. dated 29.2.68 at pages 6-9 of the File No.PWD 428 EEB.67 placed below may please be perused.

376.Chief Engineer,Irrigation, has stated that due to stoppage of water to Gokak Mills water could be supplied to Rabi crop to an extent of 6,500 acres which is additional irrigation. Chief Engineer,MSEB. has stated that owing to stoppage of water to Gokak Mills for generation of power the additional cost involved,that is, (the difference between the rate at which the electric power would have been generated by the Gokak Mills and the rate at which the power is supplied to Gokak Mills) would be Rs.23,700 per month. Assuming that at least for a period of 4 to 5 months water will not be supplied to the

WD 01050—GPB—8,00,000 13-12-65

Gokak Mills the extra cost involved would be Rs.1,18,500/- against which the income that the Govt. is going to get would be in the form of water rates from the additional extent of 6,500 acres benefitted (growing Rabi crops). Assuming the water rate Rs.6 per acre the income to Govt. would be Rs.39,000/- as against which Govt. will have to pay to M.S.E.B. a sum of Rs.1,18,500/-. Under the above circumstances the Divisional Commissioner may not be able to recover this entire cost from the beneficiaries. However, draft letter addressed to the Divisional Commissioner placed at page 295 CF. may please be perused.

381) As discussed with the Joint Secretary, it is seen that the present arrangement of stopping and supplying water to Gokak Mills is only for this season and with the commencement of the monsoon in 1968, the Mills can resume production of their own Hydel power. Please see Page 288/c.f. The Chief Engineer (North) had been asked to intimate if the supply of ~~1964x65~~ 64 Cusecs of water to Gokak Mills was being made continuously throughout the year so far and in case the normal course there was low flows in the river would not ~~be present~~ the present arrangement mean permittin the Gokak Mills to draw extra power from M.S.E.B. even for this period. Kindly see Page 286/c.f. The Chief Engr. in his reply dated 20-3-1968 at Page 293/c.f. has intimated that even after stopping ~~supplying~~ water supply to irrigation completely, if it is not possible to maintain the required level in the Dupdhal lake then the quantity of water available depending on the storage condition was supplied to Gokak Mills without commitment on either of the parties. The Chief Engineer will therefore be requested to indicate the average quantity of water that was being supplied every month during this period to the Gokak Mills during the past 5 to 10 years. The M.S.E.B. will have to calculat the average generation of power which the Mills would have generated from their own Hydel plant based on these particulars to be furnished by the Chief Engineer. A Draft letter addressed to the Chief Engineer placed at Page..296./c.f. is for approval.

further action to be taken on this

398) According to the agreement entered into between the then Government of Bombay and the Gokak water power and Manufacturing Co., in 1894 we are to supply to the Gokak Mills 68 Cusecs of water from the Dupdal weir (old head works of the Gokak Canal) for generation of power below the Gokak falls. This agreement is binding on us for a period of 99 years from 28th May 1884. Accordingly water is being supplied to the Gokak Mills from the Dupdal wear on Ghataprabha river. In November 1967, a decision was taken to the effect that this supply of water from the Dupdal Weir to the Gokak Mills be stopped and diverted for irrigation under the Gokak Canal. The Gokak Mills would draw their power requirements from the M.S.E.B. It was also agreed that the Gokak Mills would be compensated for the difference between the cost of additional power supply and the Mills own generation cost for the period for which water supply for the Mills for the purpose of power generation remained suspended. Accordingly the supply of water to Gokak Mills was stopped from 22nd November, 1967 and the power House of the Gokak Mills was also stopped from the same date. The M.S.E.B. have indicated that the cost of power generation by the Gokak Mills from their power house works out to 0.94 paise per unit. Assuming that the 68 cusecs of water drawn by the Gokak Mills is used for the generation of power the total amount of power, that would be generated by their plant assuming a head of 180 feet, a plant efficiency of 75% and a load factor of 85% ~~the average power generated by the Mills~~ would be of the order of 5 lakh units per month. The total requirement of power

by the Gokak Mills is stated to be 20 lakh units per month. Assuming 5 lakh units being generated at their own power house and 15 lakh units being drawn from the M.S.E.B. the total cost that would have been incurred by the Gokak Mills for 20 lakh units of energey would be Rs.62,396/-. If in case the entire requirement of 20 lakh units of power were drawn by the Gokak Mills from the M.S.E.B. then the total cost that would be incurred by them would be Rs.86,070/-. Therefore the extra cost incurred by the Gokak Mills due to the stoppage of their power house consequent on the stoppage of water supply from the Dubdal wear would be Rs.86,070 - 62,396 = Rs.23,674/- per month. (Please see Pty X - at Page No 422 & 423 399) It is seen from the information furnished by the Chief Engineer that during the past 5 years the supply of water from Dubdal wear to Gokak Mills has dwindled after January and during the months of April and May and partly in March the flow has been very low. A statement showing the average discharges allowed from the Dubdal wear during the years 1955-56 to 1966-67 during the months of October and to June of each year is placed at Page 318 C/F. Apart from this it is also seen from the Daily discharge records that during the period February, 10th 1968 to end of March 1968, the inflow into Dubdal reservoir has been nill and no water has been drawn into the Gokak Canal for irrigation purposes. As such it can be assumed that during this period even under normal circumstances the Gokak Mills would not have been supplied the required quantity of 68 cusecs of water and their power house would have been stopped. As such for the period 11th February 1968 and the period March 1968 the question of compensating the Gokak Mills for cutting down the water supply does not arise; and the compensation that will have to be paid will be only for the period begining from 22nd November 1967 to 10th February 1968. Assuming that the

Pty A.

WD 01050—GPB—8,00,000 13-12-65

amount of compensation payable would be of the order of Rs.23,700/- per month the total compensation that will be payable to Gokak Mills for this period from 22nd Nov. 1967 to 10-2-1968 will be as below:

(1)	November	9 days	.. Rs. 7,110
(2)	December (complete month)		.. Rs. 23,700
(3)	January		.. Rs. 23,700
(4)	February	10 days	.. Rs. 8,107
		Total	Rs. 62,617/-

400) The Chief Engineer has already been intimated vide Government letter dated 18th December 1967 at Page 279 that this extra cost due to the stoppage of supply of water to the Gokak Mills will have to be borne by the the agriculturists who will be benefitted by such stoppage of water and that the cultivators may be appraised about this well in time. The Chief Engineer has also intimated in his letter dated 20th February 1968 at Page 294 C/F., that the cultivators have been appraised of this fact. Further again with Government letter dated 15-3-1968 the Divisional Commissioner, Belgaum has also been informed of this and has been requested to take action to recover this extra amou from the agriculturists under the Gokak canal who have been benefitted by supply of water from November 1967 onwards. The Gokak Mills with their letter dated 1-4-1968 at Page 304 C/F., have requested to advise the compensation that is payable to the Company. It is also seen from the letter of the Chief Engineer, M.S.E.B. dated 26th March 1968 page 298 C/F., that the Gokak Mills have paid their power charges for the month of February 1968 under protest and has requested therefore for early decision regarding the payment of compensation to the Gokak Mills.

Subject: Supply of power to Gokak Mills Ltd. | *File No.* PWD 50 MGP 60 | *M. G. S.*

401) During the period April and May the ~~conservation~~ of inflows in Ghataprabha river at the Dupdal wear will be low as in March and February. As such the question of payment of compensation for the period April and May may not arise. Further since the supply of water to Gokak Canal has been cut off from February 20th to-date; it can be safely assumed that there can be no question of providing any further water supply for irrigation under the Gokak Canal. Since water supply has been cut down for a continuous period of more than a month there can be no question of any irrigation being developed afresh. Under these circumstances the Chief Engineer and the Divisional Commissioner, Belgaum and the Chief Engineer, M.S.E.B. will be intimated that the compensation payable to Gokak Mills for the period from 22nd November will be Rs.62,617 which will have to be recovered from the beneficiaries under the Gokak Canal who have been received water for irrigation since the stoppage of supply of water to Gokak Mills. A draft addressed to the Divisional Commissioner, Chief Engineer (North), Chief Engineer, M.S.E.B. is placed at Page.....7..... for perusal and approval.

416) Shri. Madan, from M/s. Gokak Mills was present at the meeting held on 13th May 1968. The ~~entire~~ position dealt in Paras 398 to 401 C/F., was explained. He was told that water had been drawn from Dhupdal ~~lake~~ weir into the Gokak canal for irrigation during the period 22nd Novr. 1967 to

Subject: Supply of power to File No. M. G. S.
the Gokak Mills Ltd - Reg. PWD 50 MGS 68.

10-2-1968 and after 10-2-1968 no water had been drawn for irrigation since the flows in the river were minimal. Therefore it was made clear to him that the compensation that will be payable to M/s. Gokak Mills would be for the period 22nd Novr. 1967 to 10th Feb. 1968 for which period water had been drawn for irrigation under the Gokak Canal. Even though the amount of compensation payable for this period works out to Rs.62,617/- he was requested to agree to a figure of Rs. 50,000/- being payable as compensation to the Gokak Mills. The same was agreed to by Shri. Madan and it was promised that a letter to this effect would be sent by him.

The representative of the mills was good enough to agree when the suggestion was made to him. CB 15/5

430) Submitted for perusal.

24/6

431) Please see the letter addressed to the Gokak Mills at page 288 of the File placed below Flag 'T'. It has been agreed that the Gokak Mills can resume generation of Hydro power after commencement of 1968 monsoons. The monsoons have just set in and as seen from the flow reports received there is inflow into Dhupdal Lake. It will therefore be necessary to draw the attention of the Chief Engineer, Irrigation, (North) and the Superintending Engineer, Ghataprabha Project to our letter dated 8.1.1968 at page 288 CF. and to inform them that the supply of water to Gokak Mills should continue with the commencement of e monsoons as during the previous years. A draft addressed to Chief Engineer is also placed at page 337 CF. for perusal.

21/11

WD 01050—G.P.B.—8,00,000 13-12-65

The letter from M/s Gokak mills Ltd at p·375 cf may please be seen. Last year the firm agreed to receive an amount of Rs 50,000/- towards compensation for the stoppage of supply of water to the Mills for the generation of power. This year they have indicated that the compensation payable to them should be Rs 23,700/- per month. Therefore it is desirable that the CE be informed that watersupply to the Mills can be cut off only if the beneficiaries under the Gokak Canal have agreed to recoup the Compensation payable to the Mills. Draft at p 374 may be perused & approved.

No. 7639
Date 22 FEB 1968
Section MJ

Sir,

Sub:- Supply of Power to Gokak Mills Ltd.

Ref:- 1) Govt.letter No.PWD 50 MGP 60 dt.18-12-67.
2) Govt.letter No.PWD 50 MGP 60 dt.6-1-68.

Adverting to above, I am to state that the Superintending Engineer, Ghataprabha Project Circle, Hidkal, has reported as under:

i) Dhupdal Weir is a diversion weir which has also got impounding capacity to the extent of 701 M.Cft at an R.L.26.00 above the sill of the Central sluice. Water will be let into the canal for irrigation depending on the rainfall in the atchkat and water requirement of crops. As there were rains in the command area, no water was allowed in the canal for irrigation from 19-12-67 to 22-12-67. But, the inflow into the lake during the above mentioned days was stored. Subsequently this water was also made available for Rabi Crops.

ii) As per terms of agreement it is obligatory on the part of Department to supply 68 cusecs of water to Gokak Mills except in case the supply cannot be maintained due to abnormally low inflows in the river. The balance storage available over and above the requirement of Gokak Mills is only being utilised for Rabi Crops. As such, the supply of water for Rabi crops under Gokak Canal is not assured. During lean years it will be obligatory on the part of Department to maintain a level of 23.5 in the Dhupdal Lake. Even after stopping water supply to irrigation completely, if it is not possible to maintain the level of 23.5, then the quantity of water available depending on the storage condition is supplied to Gokak Mills without commitment on either of the parties. However, the quantum of power to be supplied could be arrived at on the basis of the monthly average consumption of water by the Mills in the past for generation of power.

File no. PWD 50 MGP 60 has been referred to the Electrical Section in another Connection. file will be put up on receipt of the file.

This is put up

iii) The supply of water to Gokak Mills was stopped completely from 22-11-1967 and this water was supplied for Rabi Crops continuously, the supply however being regulated depending on the rainfall in the command area. Due to the stoppage of water to Gokak Mills, the water could be supplied regularly to Rabi Crops to an extent of 6500 Acres which is the additional irrigation.

/....2..

iv) The cultivators have been appraised of the fact that the difference in cost of generation of power by Gokak Mills and Tariff rate of Mysore State Electricity Board, will have to be borne by them.

"O.C. APPROVED BY C.E."

Yours faithfully,

B. Venkatappaiah 20/2

Draft.

No.PWD 50 MGP 60

To

The Divisional Commissioner,
Belgaum Division, Belgaum.

Sir,

Sub:- Supply of water to Gokak Canal by cutting o
the supply ~~of~~ to Gokak Mills.

I am directed to state that as desired by the Irrigators ~~from~~ under the Gokak Canal, water was made available from the Ghataprabha River to Gokak Canal for irrigating their second crop by stoppage of water normally supplied to the Gokak Mills for generation of power. The supply of water to Gokak Mills was ~~supplied~~ stopped from 22nd November 1967. The additional powe required by the Mills due to the stoppage of water has been made available by the Mysore State Electricity Board. ~~In the~~ The Mysore State Electricity Board have worked out ~~x~~ in detail the cost of generation of power that the Gokak Mills would have incurred, in case the supply of water had been maintained and the cost of additional power now supplied by the M.S.E.B. at their tariff to the Gokak Mills. The additional cost due to supply of power by M.S.E.B. is Rs.23,700/- per month This difference in the cost of power will have to be re-imbursed to the Mysore State Electricity Board. This cost has to be borne by the Agriculturists under the Gokak Canal who ~~will~~ one benefitted by the stoppage of supply of water.to the Gokak Mills Limited. I am therefore directed to request you to take action to recover this extra cost at the rate of Rs.23,700/- per month from the agriculturist under the Gokak Canal who have been benefitted by supply of water under Gokak Canal from November 1967 onwards.

Yours faithfully,

U.S., P.W.D. (Technical).

26 Mar. 1968

Dear Sir,

Sub: Supply of power to M/s Gokak Mills Ltd.,

I enclose herewith a copy of letter No.807/68 dated 14-3-1968 received from the General Manager, The Gokak Mills Ltd., addressed to the Assistant Engineer (Elecl), M.S.E.B. Ghataprabha and copied to the Chairman, M.S.E.B. Bangalore, intimating that the bill for the month of February 1968 has been paid under protest and that they are looking forward for the early reimbursement of the portion of the compensation to be paid to them for releasing the water for irrigational purposes, which could have been used for generation in their mills.

I wish to state that the question of the amount of reimbursement and the agency responsible for making this payment has not been settled yet. I, therefore, request you to arrange for the payment of compensation to M/s Gokak Mills Ltd., early.

With regards,

Yours Sincerely,

K. S. Subrahmanyam

Sri Chandappa Patel, I.A.S.,
Secretary to the Govt.of Mysore,
Public Works Department,
Bangalore.1.

Copy of letter No.807/68 dated 14-3-1968 from the Mills General Manager, The Gokak Mills Ltd., Station Road, Gokak addressed to the Asst.Engineer (Elecl.Maintenance) M.S.E.B. Ghataprabha and copied to the Chairman, M.S.E.B. Bangalore.

We enclose herewith a draft on the Belgaum Bank Ltd., Gokak, for the sum of Rs.1,04,992-94 in full settlement of your bill R.R.No.HT-1, dated 2-3-1968 for electricity consumed during February 1968.

For reasons explained vide our letter No.3808/67 dated 15th December 1967 we advise that were are paying this bill under protest and look forward to an early reimbursement of the portion of the bill referred to which does not take into account compensation for units utilised in lieu of water.

Dear Sir,

Stoppage of Supply of Water to our Mills - Compensation payable by Government.

We refer to your letter No. PWD 50 MGP 60, dated 8th January, 1968.

At Government's request, our Hydro power station was shut down from 22nd November, 1967. At the time this matter was being considered, we drew your attention to the possibility of there being a water shortage downstream on account of closure of the Hydro station.

As you will be aware, our Hydro station does not consume water but discharges the water it receives after power generation back into the river. This water is then utilised by towns and villages situate downstream of Gokak Falls and in many cases, it is the major, if not the sole source of water supply. When our Hydro generation is suspended, the river runs dry, and therefore, there is little or no water available downstream.

We have now received strong representations from the President of the Gokak Town Municipality that the Town is suffering from an acute shortage of water. We understand also that besides Gokak Town, there are other towns and villages downstream which are also suffering from an acute water shortage.

We are drawing your attention to the above, as we feel that it is necessary that some discharge should take place during the dry season, as was the case in previous years.

Yours faithfully,

EXPRESS DELIVERY

Dear Sir,

Stoppage of supply of Water to our Mills -
Compensation payable by Government.

We refer to discussions in your office on 13th May, 1968.

Although in our estimate the compensation payable is much higher, we are agreeable as a special case to accepting Rs.50,000 for stoppage of water supply to our Mills Hydro Power Station from 22nd November '67 until the outbreak of this year's monsoon.

It is our understanding that the above sum of Rs.50,000 will be paid to us almost immediately. Kindly confirm.

We are, dear Sir,

Yours faithfully,

Subject: Supply of Power to the Gokak Mills Ltd., Payment of compensation -

---

Adverting to Govt.letter No.PWD-50-MGP_66 of 17-6-68 addressed to the Divisional Commissioner, Belgaum Divn. and copy endorsed to this office on the subject cited above, I would request you to furnish the following particulars.

1. The exact reasons for which water to Gokak Mills was stopped.

2. Whether the drawal of water for Irrigation purposes has resulted in stoppage of water supply to the Power Mills.

3. The period during which water was not supplied to the above mills.

4. Whether this is a recurring feature in the vicinity of the Gokak canal, i.e., whether the supply of water falls short for the purpose of irrigation as well as for power mills.

5. A sum of Rs.50,000/- has to be paid to the mills as compensation. In this connection it is requested to intimate how this sum has been arrived at.

6. Lastly a copy of Govt.letter No.PWD-50-MGP_60 dt. 15-3-68 may please be supplied for reference.

In continuation of this office letter No. PWD 50 MGP 60 dated 15-3-1968, I am directed to state that it has been agreed after discussion, that a sum of Rs.50,000/- (Rupees fifty thousand only) will be paid to the Gokak Mills for stoppage of water supply to the Gokak Hydro ~~Ex~~ Power Station for the period water had been drawn for irrigation under the Gokak Canal. This is an unfoseen item of expenditure and is not recurring. It is not a refund of revenue collected. Therefore this may be treated as an item of unforseen expenditure and paid by debit to "71 Miscellaneous K.Miscellaneous and unforseen charges K.C.other items 2 other items." The recoveries also from the beneficiaries which are not covered by the provisions of water rate and Betterment levy Act be credited to Miscellaneous revenue under "LII-Miscellaneous".

This issues with the concurrence of the Finance Department vide their U.O.No.FD3018/W&S-1/68 dated 11-6-68.

Stoppage of Supply of Water to our Mills - Compensation payable by Government.

You will recollect that at a Meeting held in your Office on 13th May 1968, it was agreed that an amount of Rs.50,000 would be paid by the Government to our Company for stoppage of water supply to our Mills' Hydro Power Station from 22nd November, 1967, until the outbreak of the 1968 monsoon.

It was further agreed that this compensation would be paid to us almost immediately.

This agreement was confirmed by your letter No. PWD 50 MGP 60, dated 17th June, 1968, and by letter of even Reference and date, you requested the Divisional Commissioner, Belgaum, to arrange payment of Rs.50,000 to us.

GOVERNMENT
9 SEP 1968
PUBLIC WORKS & EL. DEPT.

We regret to say that although almost 4 months have elapsed since this decision was taken, owing to some procedural difficulties the payment in question has not been made to us as yet. We shall be grateful therefore, if you will kindly request once again the Divisional Commissioner's Office, Belgaum, or the Office of the Resident Accounts Officer, P.W.D., Hidkal, as the case may be, to remit the amount to us without any further delay.

With thanks, we remain,

Yours faithfully,

Dear Sri Mohan

Government in their above referred G.O. have directed that a sum of Rs. 50,000/- be paid to the Gokak Mills Ltd., for stoppage of water to the Gokak Mills during the period water was drawn for irrigation and that the payment be charged to the Major head "71-Misc. K.Miscellaneous etc. The G.O. is, however, not specific as to who should arrange payment to the Gokak Mills Ltd. I would be thankful to you, if you will kindly arrange to clarify the position. It is presumed that this office has to make payment on a simple bill form presented by the Executive Engineer, G.L.B.C. Division Jamakhandi. This may please be confirmed.

With regards,

Yours sincerely
Subramanya

Sir,

Subject:- Supply of Power to the Gokak Mills Ltd., Payment of Compensation regarding.

Under the Govt. letter No. PWD. 50. MGP. 60 dt. 13-8-68, the Residential Audit Officer Hidkal Dam was addressed to make necessary arrangement for making payment to the Gokak Mills as per the conditions mentioned in the Govt. order dt. 16-6-68 (which appears to have been issued on 17-6-68). The Resident Audit Officer who was requested to take action accordingly has under his letter No. RAO/GP/C. 152-53 dated 30-8-68 (copy enclosed) intimated that, inview of the pre-audit set up he is not issuing authorisation in respect of the claims relating to Ghataprabha Project and that since the expenditure is debitable to 71-Misc. K. Misc. and ~~impresen~~ charges k.c. other items-2 other items", necessary action has to be taken by this office. But it is seen that the secretary to Govt. Finance Department, Bangalore is the controlling officer in respect of the above head of account. Hence specific orders of Govt. to incur expenditure on this account are necessary. No grant is also placed at my disposal under the above said head of account. I, therefore, request you to move Government to issue necessary orders, as already requested in this office letter of even No. dated 5-7-1968 early.

Unforseen

Subject:- Ghataprabha Project - Supply of Water to the cultivators for growing Rabi crops under the Gokak Canal.

Sir,

I enclose herewith an extract of resolution No. 3 of the Ghataprabha Project Consultative Committee held on 14.10.68 at Belgaum and to state as under:-

Last year, water was made available from the Ghataprabh River to Gokak Canal for irrigating the second crop under that Canal by stoppage of water normally supplied to the Gokak Mills for generating power and the area beniffted therefrom was about 8000 acres. (Please see Govt letter No.PWD 50 MGP 60 dated 15.3.68). The Gokak Mills was to be paid a compensation of Rs. 50,000/- on this account as they had to obtain electric power from the M.S.E.B. during that period. The subject of supplying water to the 2nd or rabi crops this year was discussed in the Ghataprabha Project Consultative Committee on 14.10,68 and it was decided that due to the adverse seasonal conditions in Gokak Taluka in particular and in this area in general, recommendations may be made to Government that supply of water to the Gokak Mills be stopped and water supplied to an area of 7000-8000 acres this year also, the amount of difference in the cost of power to be supplied to the Gokak Mills during the period of stoppage of water being recovered from the beneficiaries.

Extract of para 3 of proceedings of the 3rd meeting of the Ghataprabha Project Consultative Committee held on 14.10.1968 at 3. P.M.

-.-

3. Irrigation under G.L.B.C. during Rabi season:

The Supdt. Engineer, explained that the Irrigation under G.L.B.C. is simply by diverting the river flow by a small weir known as Ghupdal Weir and since Hidkal Dam is not yet completed, no sufficient water required for the entire command under G.L.B.C. can be stored except a small quantity behind the present weir. Out of this small storage as per agreement between the Gokak Mills and the Govt. water can be utilised for irrigation when the level of the reservoir is above a certain gauge level. But last year orders had been received from Govt. to stop water supply to Gokak Mills and utilise it for Rabi irrigation, arranging the supply of electricity to the Mills instead through the M.S.E.B. on the condition that the additional cost involved in this change over should be borne by the beneficiaries. Last year since the Consultative Committee had not been formed, the New Mysore Irrigation Act of 1965 had not been made applicable. Since this year it is formed, question of Rabi irrigation was placed before the Committee.

After considering the views of the Supdt. Engineer, and all aspects of the matter and provisions contained under Sec. 27 and 28 of the M.I.Act of 1965 the following two alternatives were considered.

(i) If water is stopped to Gokak Mills, a total command of 7000 to 8,000 acres under Gokak Canal only can be supplied with water during Rabi season, which involves a payment of compensation to the Gokak Mills to the tune of Rs. 62,000/- as was done last year.

(ii) Secondly if water is not stopped to the Gokak Mills, an extent of 2,000 acres only can be assured with irrigation water.

Considering the adverse seasonal conditions in Gokak Taluka in particular the first alternative was preferred and it was decided to move the Govt. accordingly In the mean time the Divl.Commr, narrated the case to the Chief Minister over the phone and his general approval to the effect that the water supply to Gokak Mills be stopped as was done last year by paying compensation to the Mills and recovering the difference in rates from the beneficiaries. Hence it was decided to notify about 8000 acres under Gokak Canal for Rabi irrigation with a rotation of 20 days and the M.S.E.B. be requested to supply the required volume of power to Gokak mills . Formal orders of Govt. from the concerned Deptt. of the Secretariate should be obtained as usual urgently.

Sub:- Supplying G.L.B.C.Water for rabi crops by stopping the supply of Water to Gokak Mills, during the year 1968-69.

...

The Superintending Engineer, Ghataprabha Project Circle, has reported that due to adverse seasonal conditions in Gokak Taluka in particular and in G.L.B.C.Command area in general the subject of supplying G.L.B.C.Water to second crop or the rabi crops during the current year was discussed in the Ghataprabha Project-Consullative committee meeting held on 14-10-1968 and it was decided by the committee that supply of water to Gokak Mills should be stopped and that water should be supplied to an area of about 7000 acres for irrigation this year also, as was done last year. The committee also is reported to have decided to make payment of compensation to Gokak Mills by recovering the entire amount from the beneficiaries, required power being supplied by M.S.E.B. to the Mills. It is further reported that the water so diverted is proposed to be supplied for irrigation on a ratation of 20 days. In this connection reference is invited to Divisional Commissioner's (Belgaum) letter No.GB-IRR-SR 28 Belgaum dated 23-10-68 addressed to the Secretary to Government, P.W.D. in the matter.

In the circumstance explained above I request you to kindly obtain and communicate very early the approval of Government to the proposal of stopping water to Gokak Mills this year and diverting the same to Irrigate an area of 7000 acres under G.L.B.C.area.

Yours faithfully,

Chief Engineer, P.W.D.

Section M9

The Secretary to the Government of Mysore,
Public Works & Elec.Department,
Vidhana Soudha,
Bangalore.

Dear Sir,

Supply of Water to our Mills.

We enclose copy of letter No.IRN/CB-6/13274-75 dated 12th November, received from the Executive Engineer, Ghataprabha Left Bank Canal, Jamkhandi.

We note from this letter a decision was taken at the Ghataprabha Consultative Committee Meeting held on 14/10/68, to stop supply of water to our Mills this year from the date the inflow in the river is less than 170 cusecs. We would like to record that water supply to our Mills is the subject of a bilateral agreement between ourselves and the Government and any change, even of a temporary nature, in this Agreement should be as a result of mutual discussion and agreement.

As you are aware, suspension of water supply to our Mills last year was done after such discussion whereas this year, we have only been informed by letter. This, we feel, is a breach of contract. Moreover, as compared to last year, the dam is full and the same circumstances as were prevalent in the last year do not obtain in this year. In the circumstances, we feel that the quantum and the time for suspension of water could have been arrived at after further discussion.

However, in view of the scarcity conditions in our area and as a special case, we are agreeable tothe suspension of water supply to our Mills for hydro generation provided Government's confirmation to the following conditionsis received by us (these conditions are similar to the arrangements made in the last year):

4/29/11

RS 25/11

1. The Mysore State Electricity Board will supply additional energy to our Mills to make good the shortfall created by the closure of our hydro plant.

2. The difference between the cost of additional grid supply and our own generation costs which has been estimated on the basis of the current rates for M.S.E.B. Grid power, to be Rs.23,700 per month, will be made good to us by the Government, for such periods as water supply for the Mills hydro generation remains suspended.

3. A limited quantity of water will continue to be made available to us for purposes other than power generation, such as domestic water supply, etc.

4. In the event of a breakdown of grid supply, water will be made available to us for hydro generation for the period of the grid breakdown.

5. We can resume full hydro-generation after the outbreak of the next (1969) monsoon.

6. These arrangements will be entered into without prejudice to the various agreements that the Company have entered into with the Government.

We shall be grateful if Government can signify their approval to these conditions prior to the suspension of water supply for our Mills hydro generation.

Yours faithfully,
FOR: THE GOKAK MILLS LIMITED.

Subject: Supply of water to Gokak Mills.

Sir,

As per decisions taken in the Consultative Committee Meeting held on 14-10-1968 at Belgaum that the water supply to your Mills will be stopped from the date the inflow in the river is less than 170 cusecs and the compensation as has been paid during last year will be paid this year also on the same basis and conditions that had been laid last year.

However, you may please make necessary arrangements with M.S.E.B. authorities and get required additional power in lieu of stoppage of water supply to your mills for generating power. The actual date of stoppage of water will be intimated to you by the Assistant Engineer, G.I.Sub-Dn.,Ghataprabha,later on separately.

Yours faithfully,

Sd.
(M.S.Tatti)
Executive Engineer, Gh.LBC Dn.

Copy with copy of S.E, G.P.C's letter forwarded to the Assistant Engineer, G.I.Sub-Dn.,Ghataprabha, for necessary action.

2. The actual date of stoppage of water to Mills should please be reported to this office also promptly.
